[Sale Price:](#) \$10.45

Sibutramine is used in combination with a reduced calorie diet and exercise to help people who are overweight lose weight and maintain their weight loss. Sibutramine is in a class of medications called appetite suppressants. It works by acting on appetite control centers in the brain to decrease appetite. [Details](#)

Acomplia (Rimonabant, Slimona) 14 x 20mg  
\$16.00

Rimonabant is a drug used to treat overweight people or those with medical risk factors like high BP, diabetes and high cholesterol. Rimonabant can also help reduce tobacco dependency in smokers, helping people to quit smoking. [Details](#)

Testosterone enanthate ampules 10 x 1ml/250mg  
\$102.00

Testogel (testosterone in gel) 30x50mg sachets  
\$150.00

Viagra (Sildenafil) 4x100mg - India shipped  
\$8.00

Sildenafil citrate, sold under the names Viagra, Revatio, Vectra and (in the Indian subcontinent) Caverta, is a drug used to treat male erectile dysfunction (impotence) and pulmonary arterial hypertension (PAH), developed by the pharmaceutical company Pfizer. [Details](#)

Testosteron depo is an ester of testosterone and enanthic acid. In the body, testosterone enanthate is hydrolysed to yield testosterone, resulting in no difference in action of esters and hormones. Testosterone main activity is: LH secretion regulation, spermatogenesis, male phenotype formation in the process of sexual differentiation and sexual maturity at puberty period in males. [Details](#)

Testosterone gel is the first testosterone-containing gel treatment for daily use. Once you are using Testosterone gel you should notice improvements in your mental and physical well-being and performance within a few weeks. It should also have a positive effect on your general mood, self-esteem and vitality. Body shape and proportions become more masculine again. Muscle mass and strength increases, whereas body fat decreases. [Details](#)
