[Anabolic Steroid Dianabol Turns 50](#)

The performance-enhancing drug Dianabol, which became the first widely used anabolic steroid and has built muscle for athletes and bodybuilders and become the subject of criminal prosecutions, was developed in 1958. There's a good piece in the New York Daily News looking at half a century of the steroid's use:

[Get Off The Couch This Summer Join The Fitness Revolution For Kids](#)

Get Off The Couch This Summer Join The Fitness Revolution For Kids Theresa Byrne has helped thousands blossom through health and fitness at her Denver martial arts studio and as the fitness coach on the reality show Fitting In, on the ABC Family Channel. Now she's bringing her motivational fitness program to a kid near you. Today Byrne releases a workout DVD

Substance: Drostanolone Enanthate and Propionate
Manufactured by: Axiolabs
Packaging: 1 x 10 ml (200mg/ml)

Mastaplex 200 (Drostanolone Enanthate and Propionate) is a synthetic derivative of **dihydrotestosterone**, displaying a potent **androgenic effect** that is responsible for increases in muscle density and hardness and a moderate anabolic effect that creates a positive nitrogen balance in humans and promotes protein synthesis. Since it is a derivative of **dihydrotestosterone**, dromastolone does not aromatize in any dosage and thus it cannot be converted into estrogen. Therefore, estrogen-related water retention is eliminated. **Mastaplex 200(Drostanolone Enanthate and Propionate)** combines the fast-acting propionate form with the longer acting **enanthate** form.

Drostanolone (trade name *Masteron*) is an **anabolic/androgenic steroid**. It is known to be highly androgenic and mildly anabolic. It is incapable of aromatization and has similar properties to dihydrotestosterone. It has been successfully used as a breast cancer drug but because of the high risk of virilization safer options are prescribed.

Use in sports

Masteron is used primarily by athletes who need to retain strength while losing **mass**. It is beneficial to runners and athletes who must remain in a certain weight class. It has gained popularity in the **bodybuilding** community as a diuretic and muscle defining drug.

Trivia

Ultimate Fighting Championship athlete Hermes Franca tested positive for use of **Drostanolone** following his July 7th 2007 lightweight championship bout against title holder Sean Sherk.

based on her "Fitness Revolution for Kids" program, a new approach built on the belief that kids can find success and even fun getting fit through positive motivation and by connecting mind, body and spirit. Fitness Revolution for Kids is a playful, high-energy workout for children ages 5 and up. It is now available at <http://www.revolutionforkids.com> for \$19.99. "The Revolution is designed to give today's amazing children the tools they need to create their own generation of health," Byrne said. "We empower kids and their families by accepting the good things about them. When kids are feeling healthy and strong, their positive contributions to the world are limitless."
