Primoplex 100 for intramuscular injection, contains methenolone enanthate

Methenolone Enanthate is a DHT based anabolic steroid. Known under the brand name of Primoplex® in tablet or injectable form.

When it interacts with the aromatase enzyme it does not form any estrogens. It is used by people who are very susceptible to estrogenic side effects, having lower estrogenic properties than Nandrolone. Methenolone is available as an injection or as an oral(primoplex). The injection is naturally regarded as having a higher bioavailability. Its an enanthate ester which is quite long-acting. Because it bypasses hepatic breakdown on the first pass, it also has a higher survival rate. The tablets are in a short-lived acetate form. Methenolone is not 17-alpha-alkylated, but 1-methylated for oral bioavailability. This reduces the stress on the liver, but also the availability. It is considered one of the safer steroids, meaning it has a very little side effects. Methenolone has no estrogenic side effects, and its effects on cholesterol levels are minimal. In doses of 200 mg or less (intramuscular) blood pressure is rarely altered.

Possibly one of the safer anabolic steroids for females due to very low virilization effects in short-term usage. Of course, this is not a blanket-statement and individual results (dependent on doses and tolerance) will vary.

Methenolone is also not overly suppressive of the HPTA axis, although how suppressive is debatable. For this reason, many bodybuilders use it in between steroid cycles during their "off-time" to help maintain their gains and strength. The long term safety of such a practice possibly dangerous and can lead to permanent suppression of the HPTA.

Arnold Schwarzenegger is rumored to have introduced methenolone to the US bodybuilding community.

Primoplex is indicated in the treatment of refractory deficient red cell production anemias. These may include aplastic anemia, myelofibrosis, myelosclerosis, agnogenic myeloid metaplasia, and hypoplastic anemias caused by malignancy or myelotoxic drugs.

Primoplex is indicated in conditions such as chronic infections, extensive surgery, [corticosteroid-induced myopathy, decubitus ulcers, burns] , or severe trauma, which require reversal of catabolic processes or protein sparing effects. These agents are adjuncts to, and not replacements for, conventional treatment of these disorders.

Primoplex (Methenolone Acetate) has been used in certain countries to counteract catabolic states, for example after major trauma.

[Women On Prudent Dietary Pattern May Reduce Risk Of Death](#)

Women On Prudent Dietary Pattern May Reduce Risk Of Death Women who eat a diet rich in vegetables, fruits, legumes, whole grains, fish and poultry may reduce their risk of death from cardiovascular disease and all causes. Women who follow a traditional "Western" diet of red and processed meat, refined grains, fries and sweets may increase their risk. That's the conclusion of researchers who reported the results of a Harvard School of Public Health study in Circulation: Journal of the American Heart Association. The study of 72,113 healthy women found that high adherence to the "prudent" dietary pattern was associated with a 28 percent lower risk of death from cardiovascular disease and a 17 percent lower risk of premature death from all causes when compared to the lowest adherence.

Get Off The Couch This Summer
Join The Fitness Revolution For Kids
Theresa Byrne has helped thousands blossom through health and fitness at her Denver martial arts studio and as the fitness coach on the reality show Fitting In, on the ABC Family Channel. Now she's bringing her motivational fitness program to a kid near you. Today Byrne releases a workout DVD based on her "Fitness Revolution for Kids" program, a new approach built on the belief that kids can find success and even fun getting fit through positive motivation and by connecting mind, body and spirit. Fitness Revolution for Kids is a playful, high-energy workout for children ages 5 and up. It is now available at <http://www.revolutionforkids.com> for \$19.99. "The Revolution is designed to give today's amazing children the tools they need to create their own generation of health," Byrne said. "We empower kids and their families by accepting the good things about them. When kids are feeling healthy and strong, their positive contributions to the world are limitless."
